

Portable Samplers

The AS950 Portable Sampler's lightweight design, low power requirements, and easy mobility make it ideal for field applications, including stormwater, environmental, or industrial pre-treatment. The AS950 controller is equipped with standard memory and USB connectivity allowing all data to be logged and transferred via USB drive, so a laptop is not needed in the field. Plus, the large, full colour display allows intuitive programming to make these critical, remote sampling applications virtually error-free. The AS950 portable sampler is available in three base sizes to meet different requirements; compact for smaller manhole applications, standard for a majority of applications and large to allow for large bottle composite sampling.

For stormwater sampling, the AS950 portable sampler provides the ability to initiate up to two different programs based on user-defined conditions, such as rainfall or pH thresholds. The AS950 can be further programmed to collect varying sample sizes, collect samples at user-specified time intervals (i.e., time-weighted) or flow volume increments (i.e., flow-weighted), or collect samples over an entire run-off event as determined by a rain or flow sensor.

For industrial pre-treatment monitoring, the AS950 portable sampler is available with a non-contact liquid detect to prevent cross contamination of samples, without cumbersome cleaning procedures. Ensuring a clean sample is quick with pump tubing replacement that requires no tools. A Hach Differential pH sensor can also be added to initiate a sampling program when thresholds are exceeded.

Part Number	Product description	Base Type	Power requirements (Voltage)	Sample container	Probes included?	GBP Price
ASP.CSRXS141XX	AS950 Portable Standard Sampler Bundle, 24 x 1 L Bottles, 2 Sensor Ports, Rain Port	Portable	12 V Battery	24 x 1 L	No	Contact Us
ASP.CSXXS121XX	AS950 Portable Standard Sampler Bundle, 1 x 10 L Bottle, 2 Sensor Ports	Portable	12 V Battery	1 x 10 L	No	Contact Us
ASP.CSXXS141XX	AS950 Portable Standard Sampler Bundle, 24 x 1 L Bottles, 2 Sensor Ports	Portable	12 V Battery	24 x 1 L	No	Contact Us
ASP.CXXXS121XX	AS950 Portable Standard Sampler Bundle, 12 V, 1 x 10 L Bottle	Standard	12 V Battery	1 x 10 L	No	Contact Us
ASP.CXXXS141XX	AS950 Portable Standard Sampler Bundle, 12 V, 24 x 1 L Bottles	Standard	12 V Battery	24 x 1 L	No	Contact Us

Part Number	Product description	Base Type	Power requirements (Voltage)	Sample container	Probes included?	GBP Price
ASP.CXXXS341XX	AS950 Portable Standard Sampler Bundle, 230 V, 24 x 1 L Bottles	Standard	12 V Battery	24 x 1 L	No	Contact Us
ASP.CSRXS12114	AS950 Portable Compact Sampler Bundle, 12 V, 1 x 10 L Bottle, Submerged Area Velocity Sensor, digital pH Sensor, Rain Port	Standard	12 V Battery	1 x 10 L	Submerged Area Velocity and digital pH	Contact Us
ASP.CSXXC12114	AS950 Portable Compact Sampler Bundle, 12 V, 1 x 10 L Bottle, Submerged Area Velocity Sensor, digital pH Sensor	Compact	12 V Battery	1 x 10 L	Submerged Area Velocity and digital pH	Contact Us
ASP.CSXXS12114	AS950 Portable Standard Sampler Bundle, 12 V, 1 x 10 L Bottle, Submerged Area Velocity Sensor, digital pH Sensor	Standard	12 V Battery	1 x 10 L	Submerged Area Velocity and digital pH	Contact Us
